I am so saddened to learn of this. Mike personified the definition of a true gentleman. Mike entered my life while working at Curtis Ambulance. His soul was an old one and his core values were extremely strong as well as his work ethics. When Mike told you he would do something for you or be there for you, you could take that to the bank! He was a man of His word. Such a kind persons with the biggest heart I know. Man the stories he told of his fishing expeditions were epic. Mike, know the impact you had on people and the lasting effects that will remain with them forever. Heaven is truly blessed to add you to their Angel squad. Rest now and know we all know you will also have a fishing pole in your hand always in search of that Monster Sturgeon!

Mike and I were full-time partners on the rig, he became a great friends and talked a lot during our shifts. We were able to take calls with minimal conversation, due to our unspoken bond and ability to undertsnd and know eachother and what needed to be done. Mike and I were able to talk about anything with eachother with no judgemts. He became a second father always making sure i was ok mentally and and physically, along with making sure i was able to eat and rest after rough calls. After we both left the service we stayed in touch checking in on eachother, and laughed about memories we had together on callas.I will miss him dearly. Please let me know when his services are.
